Letter to Pupils and Parents/Carers

Important Update on School Re-Roof and Swimming Pool Facilities

30th September 2025

Dear Pupils and Families

Further to my recent letter, when we re-opened under a more water-resistant roof-covering, I would like to inform you that the main school heating boilers will be switched off this Thursday as part of the ongoing re-roofing works.

We apologise for any inconvenience this may cause and kindly ask that you ensure your child comes to school with warm clothing on Thursday and Friday.

We will have access to warm water in bathrooms and the kitchen, as they are on separate boiler systems. However, the swimming pool will be closed as the higher air and water temperatures maintained by the boilers, are crucial in maintaining the water quality.

Most rooms have electric heaters, and we will be able to use these areas but must not overload the system.

Hopefully, this inconvenience will be short-lived, and the building will slowly warm up during the start of next week. Please ensure your child's clothing is sufficient to keep them warm on Monday, when we will review the situation.

Best Wishes

Paula Wareing
